HAND TOOLS

TRADITION. PRODUCTIVITY. INNOVATION.

These words encompass all that we strive to incorporate into each product. That is why every year our engineers go above and beyond to collect consumer feedback, conduct quality testing and use their own vast knowledge of hand tools to improve our broad line of products. With that information put to work in the lab, we bring you our professional product line with industry-leading innovations. We work to continually design projects with superior features that will see you through to the end of your job and beyond.

In 2020 we aim to generate 81 billion impressions supporting STANLEY® and FATMAX® products.
